Product Obsolescence Notice

IPOS41, Electronic Control Unit

We are here to officially confirm that in a continues research of improvements and to have the best electronic devices in line with the actual market needs, the decision to discontinue the IPOS41 in favor to the brand new ECU1000.

ECU1000 fully cover all the IPOS41 capabilities and can be easily replaced in case of a full electronic revamping activity

The use of ECU1000 can grant the optimization of the last available electronic cards to increase the life of the modulating electro-hydraulic system sold by Emerson division Biffi.

IPOS41 was out of stock from the 2008 and the spare parts released until to 2018

Each IPOS41 sold was part of a tailor-made solution and in case of spare parts request need to evaluate case by case the type of replacement.

It is possible to have solution with IP (not Explosion proof) or Explosion proof replacements.

Each IPOS41 sold was part of a tailor-made solution and in case of spare parts request need to evaluate case by case the type of replacement (control cabinet, electronic cards or both) .

- **Obsolescence Schedule**

- o IPOS41 is not present in the price list, but is no more available from **January 01, 2008**
